

🎓 Experienced Tutor | University of Amsterdam | MSc in Mathematics

I have an MSc in Mathematics from the University of Amsterdam and a BSc in Applied Mathematics from Delft University of Technology. With 17 years of experience, I specialise in teaching IB, A-Level, and IGCSE Maths, helping students excel and strengthen their grasp of key mathematical concepts.

Teaches:

IB Maths

A-Level Maths

IGCSE Maths

GCSE Maths

AP Calculus

Curriculum:

IB

A-Level

GCSE

IGCSE

AP

Qualifications

University of Amsterdam: MSc in Mathematics (2004–2006)

Delft University of Technology: BSc in Applied Mathematics (2000–2004)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the past 17 years, I've worked with students from various backgrounds, teaching them the fundamentals of mathematics and guiding them through rigorous curriculums like IB, A-Level, and IGCSE. My experience ranges from one-on-one tutoring to working with small groups, ensuring tailored learning for every student.

Additionally, I have supported students preparing for AP Calculus, helping them gain confidence in handling complex calculus topics. My approach has consistently helped students reach their academic goals, securing places at top universities. Throughout my career, I've worked closely with learners from different regions, helping them overcome their challenges in mathematics.

I've also worked as a research assistant, applying statistical tools to social research, which adds depth to my understanding of mathematical applications. This experience has been invaluable in preparing students for competitive exams, enabling them to excel in both coursework and standardised tests.
