Tutoring Experience

Over the past decade, I've had the opportunity to teach a wide range of students from IB, A-Level, and IGCSE curriculums, focusing on Chemistry and related subjects. My experience working with students from diverse backgrounds has enabled me to tailor lessons according to their needs and prepare them for challenging exams.

In addition to school-level tutoring, I've also worked with students preparing for university-level chemistry and other related courses. Many of my students have successfully achieved top grades, moving on to study at prestigious universities across Europe, thanks to the skills and confidence they developed in my sessions.
